PROFILE

B.Tech graduate in Computer Science & Engineering, with strong front-end development skills in HTML, CSS, JavaScript, and React.js, along with foundational backend development skills and familiarity with Python. A good problem solver, eager to leverage my technical skills in dynamic development roles.

EXPERIENCE

Freelance   Full Stack Developer   Remote

- Built a full-stack web app for BMag Advertising using the MERN stack with responsive UI and admin panel. 🔗Bmag
- Developed Codeneksa landing page using React.js and Tailwind CSS with mobile-friendly design. 🔗Codeneksa
- Collaborated remotely, used Git/GitHub for version control, and delivered projects on time

Navieo   Web Development | MERN   Intern | June 2024 - Sept 2024

- Uploaded and managed pre-written blog content on Navieo's e-commerce website, ensuring proper formatting and user engagement.
- Led the development of Social Santa, a digital marketing website, utilizing React.js and Node.js to create a responsive and user-friendly platform.
- Integrated Nodemailer into the Social Santa website for real-time email notifications.

PROJECT(S)

DealSpy - Amazon Web Scraping   MERN | Tailwind CSS

- Implemented web scraping to extract product details and track prices from Amazon links.
- Integrated Nodemailer to send email notifications on significant price changes
- Leveraged React.js for a dynamic frontend and Node.js for a scalable backend
- Link:// DealSpy-webscraping

Vidtube - Youtube clone   React | Tailwind CSS | Youtube v3 Rapid API

- Developed VidTube, a YouTube clone using React for a dynamic frontend, integrating RapidAPI for real-time YouTube data.
- Implemented search, video playback with react-player, comments, and suggested videos for an enhanced user experience.
