PROFILE

Final-year B.Tech student specializing in Computer Science & Engineering, with strong front-end development skills in HTML, CSS, JavaScript, and React.js, along with foundational backend development skills and familiarity with Python. A good problem solver, eager to leverage my technical skills in dynamic development roles.

EXPERIENCE

Navieo   Intern | June 2024 - Present
Web Development   React Js | Node Js | Express | MongoDB

- Uploaded and managed pre-written blog content on Navieo's e-commerce website, ensuring proper formatting and user engagement.
- Led the development of Social Santa, a digital marketing website, utilizing React.js and Node.js to create a responsive and user-friendly platform.
- Integrated Nodemailer into the MERN stack rebuild of the Navieo website for real-time email notifications.

PROJECT(S)

DealSpy - Amazon Web Scraping   MERN | Tailwind CSS

- Utilized web scraping to extract product details and track prices from Amazon links.
- Stored price data in MongoDB for real-time updates and historical tracking.
- Integrated Nodemailer to send email notifications on significant price changes
- Leveraged React.js for a dynamic frontend and Node.js for a scalable backend

Vidtube - Youtube clone   React | Tailwind CSS | Youtube v3 Rapid API

- Developed VidTube, a YouTube clone, using React for a responsive and dynamic frontend.
- Integrated RapidAPI to fetch and display YouTube video data in real-time.
- Implemented search, video playback with react-player, comments, and suggested videos for an enhanced user experience.
